Gilded Mansions Jul 27 2019 The Gilded Age (1865-1918) saw the sudden rise of America's first High Society, including such prominent families as the Astors, Whitneys, and Vanderbilts. As an aristocracy based on fortunes recently acquired, these families endeavored to live like Europe's blue-blooded nobility, shedding Puritan restraint as they joyously flaunted their new wealth--especially where their homes were concerned. They erected French chateaus and Italian palazzos on New York's Fifth Avenue, at Newport, and elsewhere, often taking inspiration from Parisian styles of the Second Empire. They rejected more modest American styles just as they rejected middle-class society, and for interior decoration they turned to such artisans as Tiffany, Herter Brothers, and Allard's of Paris. Immensely readable and illuminated with 250 stunning color and black-and-white illustrations, this is the fascinating story of America's first millionaire society, the way they lived and partied, and the lush artistic and cultural legacy they established.

The Irish Aesthete: Ruins of Ireland Nov 10 2020 Go on a journey with Robert O'Byrne as he brings fascinating Irish ruins to life. Fantastical, often whimsical, and frequently quirky, these atmospheric ruins are beautifully photographed and paired with fascinating text by Robert O'Byrne. Born out of Robert's hugely popular blog, The Irish Aesthete, there are Medieval castles, Georgian mansions, Victorian lodges, and a myriad of other buildings, many never previously published. Robert focuses on a mixture of exteriors and interiors in varying stages of decay, on architectural details, and entire scenarios. Accompanying texts tell of the Regency siblings who squandered their entire fortune on gambling and carousing, of an Anglo-Norman heiress who pitched her husband out the window on their wedding night, and of the landlord who liked to walk around naked and whose wife made him carry a cowbell to warn housemaids of his approach. Arranged by the country's four provinces, the diverse ruins featured offer a unique insight into Ireland and an exploration of her many styles of historic architecture.

Burning the Big House Mar 27 2022 The gripping story of the tumultuous destruction of the Irish country house, spanning the revolutionary years of 1912 to 1923 During the Irish Revolution nearly three hundred country houses were burned to the ground. These "Big Houses" were powerful symbols of conquest, plantation, and colonial oppression, and were caught up in the struggle for independence and the conflict between the aristocracy and those demanding access to more land. Stripped of their most important artifacts, most of the houses were never rebuilt and ruins such as Summerhill stood like ghostly figures for generations to come. Terence Dooley offers a unique perspective on the Irish Revolution, exploring the struggles over land, the impact of the Great War, and why the country mansions of the landed class became such a symbolic target for republicans throughout the period. Dooley details the shockingly sudden acts of occupation and destruction--including soldiers using a Rembrandt as a dart board--and evokes the exhilaration felt by the revolutionaries at seizing these grand houses and visibly overturning the established order.

How the Irish Saved Civilization Jul 07 2020 The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's A Distant Mirror, How The Irish Saved Civilization reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's Heretics and Heroes.

In 1937 Ernest Guinness presented Luggala to his youngest daughter, Oonagh--one of the three famous --Golden Guinness Girls--following her marriage to the fourth Baron Oranmore and Browne. Oonagh described Luggala as --the most decorative honey pot in Ireland-- and made it the centre of a dazzling social world that included peers, painters and poets, journalists and junkies, scholars and socialites. In the late 1960s she passed the estate to her son, the Hon Garech Browne, founder of Claddagh Records, who has not only maintained but surpassed his mother's gifts both for hospitality and for bringing together a wide range of creative talents. Luggala Days celebrates both the unique beauty of this place and the many celebrated names irresistibly drawn there, from writers like Brendan Behan, Robert Lowell, Seamus Heaney, and Ted Hughes, to actors and directors such as John Hurt, Daniel Day-Lewis, and John Boorman, and above all musicians, including The Chieftains, Mick Jagger and Marianne Faithfull, Bono, and Michael Jackson. Ireland's Forgotten Past: A History of the Overlooked and Disremembered Jan 31 2020 This volume delves into Ireland's forgotten history bringing to light some of the most colorful characters and intriguing episodes of the country's long history. Ireland is approximately the size of the state of Indiana, yet this small country boasts an extensive, rich, and fascinating history. Ireland's Forgotten Past is an alternative history that covers 13,000 years in 36 stories that are often left out of history books.

Among the characters in these absorbing accounts are a pair of ill-fated prehistoric chieftains, a psychopathic Viking, a gallant Norman knight, a dazzling English traitor, an ingenious tailor, an outstanding war-horse, a brothel queen, an insanely prolific sculptor, and a randy prince. This volume offers a succinct account of the Stone Age and Bronze Age, as well as insights into the Bell-Beakers, the Romans, and the Knights Templar. Historian Turtle Bunbury writes a gently off-beat take on monumental events like the Wars of the Roses, the Tudor Conquest and the Battle of the Boyne, as well as the Home Rule campaign and the Great War. Ireland's Forgotten Past adds color to the existing histories of the country by focusing on the unique characters and intriguing events. This volume will delight anyone interested in the rich untold history of Ireland.

Spectral Mansions Jul 19 2021 In 1800, Dublin was one of the largest and most impressive cities in Europe. The city's townhouses and squares represented the pinnacle of Georgian elegance. Henrietta Street was synonymous with this world of cultural refinement, being one of the earliest and grandest residential districts in Dublin. At the end of the eighteenth century, the street was home to some of the most powerful members of the Anglo-Irish Ascendancy. Yet, less than a century later, Dublin had been transformed from the playground of the elite, into a city renowned for its deprivation and vast slums. Despite once being 'the best address in town', by 1900 almost every house on Henrietta Street was in use as tenements, some shockingly overcrowded. How did this happen? How did a location like Henrietta Street go from a street of mansions to one of tenements? And what was life like for those who lived within the walls of these houses? This is a story of adaptation, not only of buildings but of people. It is a story of decline but also of resilience. Spectral mansions charts the evolution of Henrietta Street over the period 1800 to 1914. Commencing with the Act of Union and finishing on the eve of the First World War, the book investigates the nature and origins of Dublin's housing crisis in the nineteenth and early twentieth centuries. Commissioned by Dublin City Council Heritage Office in conjunction with the 14 Henrietta Street Museum, the book uses the story of one street to explore the history of an entire city.
