Mathematical Omnibus Sep 30 2022 The book consists of thirty lectures on diverse topics, covering much of the mathematical landscape rather than focusing on one area. The reader will learn numerous results that often belong to neither the standard undergraduate nor graduate curriculum and will discover connections between classical and contemporary ideas in algebra, combinatorics, geometry, and topology. The reader's effort will be rewarded in seeing the harmony of each subject. The common thread in the selected subjects is their illustration of the unity and beauty of mathematics. Most lectures contain exercises, and solutions or answers are given to selected exercises. A special feature of the book is an abundance of drawings (more than four hundred), artwork by an accomplished artist, and about a hundred portraits of mathematicians. Almost every lecture contains surprises for even the seasoned researcher.

The Edith Wharton Omnibus Aug 30 2022 In his brilliant introduction to the present volume, the noted writer Gore Vidal makes this comment: "At best, there are only three or four American novelists who can be thought of as 'major' and Edith Wharton is one. ... I can only say that I envy anyone reading for the first time *The Age of Innocence* or *New Year's Day*." In these works, as in most of Mrs. Wharton's fiction, her subject is America's upper classes as they flourished in the late 19th and early 20th centuries. Alive with her inimitable wit and rich with her feeling for drama, her stories carry us from the glitter of New York's high society to the grace and elegance of Newport. The works that make up *The Edith Wharton Omnibus* are among her very best -- and Edith Wharton's best is very good indeed, ranked by many critics as equal to the novels of her contemporary, Henry James.

The Bus Feb 21 2022 In 1973 Daniel Meadows, fresh out of art school, bought a double-decker bus and set off round England in search of ordinary people to photograph. In the course of his journey he offered free portrait sessions in 22 different towns, developing the black and white prints inside the bus, in which he also lived. He photographed 958 people, alone or in groups. A quarter of a century later Meadows came across the bus photographs in his archive and was struck by how fresh they were. With the help of the local press in various towns, he went in search of the original sitters. Many could not be found and some had died,

but a number of people turned up to be re-photographed. Meadows interviews the sitters who talk candidly about their lives, their friends, their loves, their families and the future—providing a moving accompaniment to Meadows' own journey through time.
