Zen and the Art of Motorcycle Maintenance Feb 01 2020 THE CLASSIC BOOK THAT HAS INSPIRED MILLIONS A penetrating examination of how we live and how to live better Few books transform a generation and then establish themselves as touchstones for the generations that follow. *Zen and the Art of Motorcycle Maintenance* is one such book. This modern epic of a man's search for meaning became an instant bestseller on publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, *Zen and the Art of Motorcycle Maintenance* becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.

Neon Signs: Manufacture - Installation - Maintenance - A History of the Neon Tube Light and the Electrical Sign Making Industry Apr 16 2021 This stunning history of neon sign making includes more than 100 illustrations and charts showing the technical aspects of manufacture, and the dazzling potential of neon signs. First published in 1935, this work starts by telling of the various technical innovations necessary to make neon signs a lasting sight on the city streets. We are given a step-by-step explanation of how glass tubes were used in conjunction with the neon gas and electricity to produce an array of stunning colors. The shape and schematics of signs grew in variety and size, and those skilled in repair and maintenance of the signs were in demand. The authors of this work both worked in the business, and sought to teach the wider audience about their products. Associated with many bustling downtown districts such as London, New York or Las Vegas, the neon sign brightened the appearance of businesses. Through the use of neon, cities gained new glitz and color, and for decades the signage was at the heart of the 20th century prosperity. More modestly, smaller neon signs became synonymous with businesses such as roadside diners and gas stations; bright and colorful, with the option to blink on and off, the neon sign was a true stride forward in illumination technology.

Women Who Kill Feb 24 2022 *Women Who Kill* explores several lines of inquiry: the female murderer as a figure that destabilizes order; the tension between criminal and victim; the relationship between crime and expression (or the lack thereof); and the paradox whereby a crime can be both an act of destruction and a creative assertion of agency. In doing so, the contributors assess the influence of feminist, queer and gender studies on mainstream television and cinema, notably in the genres (film noir, horror, melodrama) that have received the most critical attention from this perspective. They also analyse the politics of representation by considering these works of fiction in their contexts and addressing some of the ambiguities raised by postfeminism. The book is structured in three parts: Neo-femmes Fatales; Action Babes and Monstrous Women. Films and series examined include *White Men Are Cracking Up* (1994); *Hit & Miss* (2012); *Gone Girl* (2014); *Terminator* (1984); *The Walking Dead* (2010); *Mad Max: Fury Road* (2015); *Contagion* (2011) and *Ex Machina* (2015) among others.
