Getting the books **English Paper One Examination Zimsec June 2014 Time** now is not type of challenging means. You could not isolated going like book accretion or library or borrowing from your associates to admission them. This is an completely easy means to specifically get lead by on-line. This online message English Paper One Examination Zimsec June 2014 Time can be one of the options to accompany you similar to having further time.

It will not waste your time. put up with me, the e-book will unquestionably vent you additional issue to read. Just invest tiny period to admission this on-line statement **English Paper One Examination Zimsec June 2014 Time** as capably as evaluation them wherever you are now.

Power in Contemporary Zimbabwe Jan 26 2022
In recent years, the Zimbabwe crisis rendered the country and its citizens to be a typical case of 'failed states', the world over. Zimbabwean society was and is still confronted with different challenges which include political, economic and social problems. Attempts to overcome these challenges have thrown light on the power that rests within individuals and or groups to change and even revolutionize their localities, communities, states and ultimately the world at large. Through experience, individuals and groups have promoted ideas that have aided in changing mentalities, attitudes and behaviors in societies at different levels. This book brings together contributors from various academic disciplines to reflect on and theorize the contours of power, including the intrinsic and or extrinsic models of power, which pertain to individuals, communities, and or groups in order to transform society. Reflections are on various groups such as political movements, environmental movements, religious groups, advocacy groups, gender groups, to mention but a few, as they struggle against marginalization, discrimination, exploitation, and other forms of oppression showing their agency or compliance.

Government Secrecy in an Information Age Dec 01 2019

Handbook of Research on Urban Governance and Management in the Developing World Oct 30 2019
With the emphasis on market-led development initiatives, sustainable urbanization is a challenge, especially in growing nations. Regional administrative efforts are crucial for cities to meet the planned city operations and specific targets and objectives. The Handbook of Research on Urban Governance and Management in the Developing World is a

research publication that explores contemporary issues in regional political and administrative practices and key challenges in implementing these strategies in growing nations. Featuring coverage on a wide range of topics such as urban and regional economics, supply chain management, and environmental concerns, this book is geared toward city development planners, policy makers, researchers, academics, and students seeking current and relevant research on the regional bureaucracy and its practices and how they affect growing nations.

Investigating the Impact of Information Communication Technology on Self-directed Professional Development of Teachers Mar 16 2021
The aim of this research was to investigate the perceived impact of ICT on Zimbabwean A-level science and mathematics teachers' self-directed professional development. The study was based on a questionnaire survey of 254 teachers throughout the country. Supplementary data came from 54 interviews. Some observations of teachers using ICT in teacher-centres, e-mail correspondence, and field reports also contributed to the database of the study. An analysis framework was developed through the use of grounded theory on the interview transcripts. The framework yielded 9 themes relating to the teachers' use of ICT for their professional development. These were: (1) perceived professional identity; (2) career development; (3) Managing the ICT environment; (4) theoretical and content knowledge; (5) practical knowledge and skills; (6) adaptation; (7) professional networking and; (8-9) perceived benefits to teachers and students. Chaos (complexity) theory was used to identify the major attractors (goals) for teachers' self-directed professional development using ICT. Two attractors were identified. These were personal professional development and classroom practice. However, an over-riding factor common to both attractors

was identified as self-efficacy. The study identified the over-arching driver for self-directed professional development as the teacher's need to improve their self-efficacy. A two dimensional model of self-directed professional development was suggested. The systemic element of the model focused on the self-correcting impact of ICT use on professional development, whilst the personal element focused on self-efficacy as the central stratum for self-directed professional development. The study concluded by acknowledging the potent role that ICT is playing in the self-directed continuing professional development of teachers in Zimbabwe, and recommended, among other things, the inclusion of A-level teachers in the development of localised online materials resources for their subjects. This will help to enhance relevance of the materials to the Zimbabwean context

New Leaders, New Dawns? Jul 08 2020
In late 2017 and early 2018, South Africa and Zimbabwe both experienced rapid and unexpected political transitions. In Zimbabwe, Robert Mugabe, the only leader the country had ever known, was replaced in a "soft coup" by his erstwhile vice-president, Emmerson Mnangagwa. Over a twelve-day period in February 2018, South African president Jacob Zuma was prematurely forced from office by his former deputy president, Cyril Ramaphosa. The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions. *New Leaders, New Dawns?* explores these political transitions and the way they were received. Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low; the underlying reasons for their ouster; what happened to their liberation movements turned ruling parties; and, perhaps most importantly, what the rise to power of Ramaphosa and Mnangagwa foreshadowed. Bringing together fourteen leading international scholars of southern

Africa, and adopting a political economy framework, this volume argues that the changes in leadership are welcome, but insufficient. While the time had come for Zuma and Mugabe to go, there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social, economic, and political problems both countries face. *New Leaders, New Dawns?* reveals that despite what these new leaders may have promised, a "new dawn" has not yet arrived in southern Africa.

Facets of Power Aug 01 2022 The diamond fields of Chiadzwa, among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007 a new case of blood diamonds had emerged, in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed, as well as resistance by those who have suffered at the hands of the minerals secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources, and mounting democratic challenges to elites whose power is sustained by preying on them.

imwe imba - the other room Dec 25 2021 Munashe is a bright adolescent girl living in Zimbabwe. She feels a pressure to leave Zimbabwe and to follow most of her peers to a university or to work in the West. However, she is not convinced that this is what she really wants. Via Thomas, an experienced European scientist and manager, initiating a technical Start-up Hub at her boarding school, Munashe comes in contact with Anne. *Imwe imba - the other room* - is a novel covering the last 2 high-school years of Munashe and Anne in letters between the young women as well as from Thomas to Simon, his now retired personal and business coach. Through the letters, Anne and Simon discover unknown and fascinating aspects of the (southern) African society. Especially, since Thomas includes stories from Nelson, Munashe's grandfather and small holder farmer. Based on the stories and hearing about Munashe's activities in more technical projects, Anne develops a critical attitude towards both the current Western school system and the effectiveness of traditional Western development or aid projects. On the other side, Munashe learns that Europe is not the land of milk and honey for everybody. Munashe and Anne, assisted by Thomas, review the so-called development work activities in emerging markets and propose a promising approach to economically uplift more rural areas. In part 2, the Start-up Hub activities are

proven to be sustainable and Munashe asks "where do we want to go?" A design is made for a more ideal (global) society and the issues faced, implementing their ideas, are discussed. The letters in this novel cover a wide spectrum of topics: personal struggles and contemplations, educational and business practices, science and art, geopolitics and historical backgrounds, change management as well as social developments. Each letter is written in an accessible language and underlined with references to allow the reader to explore more. Most of all, "imwe imba" wants to create awareness. Awareness for the wonderful, "real" life in Africa. Awareness that Africa is prosperity. Awareness that our younger generation is perfectly able to initiate change. That a single person can initiate change. That complaining or being upset about various (unacceptable) global happenings or actions is not enough. That a further polarisation and blaming "the others" doesn't help. That we have to do things. That we should not fear change but embrace the changes that are needed to come to the necessary improvements.

Developing Science, Mathematics, and ICT Education in Sub-Saharan Africa

Aug 21 2021 *Developing Science, Mathematics and ICT (SMICT) in Secondary Education* is based on country studies from ten Sub-Saharan African countries: Botswana, Burkina Faso, Ghana, Namibia, Nigeria, Senegal, South Africa, Uganda, Tanzania and Zimbabwe, and a literature review. It reveals a number of huge challenges in SMICT education in sub-Saharan Africa: poorly-resourced schools; large classes; a curriculum hardly relevant to the daily lives of students; a lack of qualified teachers; and inadequate teacher education programs. Through examining country case studies, this paper discusses the lessons for improvement of SMICT in secondary education in Africa.

Zimbabwe Human Rights Bulletin Feb 12 2021 *Trade Policy Review Zimbabwe 2011* May 06 2020 The Trade Policy Review Mechanism, a permanent feature of the World Trade Organization (WTO), is designed to contribute to improving adherence by all WTO members to rules, disciplines, and commitments made under the Multilateral Trade Agreement. This volume in the series provides information on the trade policies, practices, and macroeconomic situations of Zimbabwe. Each Trade Policy Review is expertly prepared after in-depth analysis of an individual nation by the WTO's Trade Policy Review Board.

International Handbook of Urban Education Nov 04 2022 The universality of the problematics with urban education, together with the importance of understanding the context of improvement interventions, brings into sharp focus the importance of an undertaking like the *International Handbook of Urban Education*. An important focus of this book is the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region.

Implementing Deeper Learning and 21st Century Education Reforms May 18 2021 This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century. The book

examines what governments actually do when they broaden curriculum goals, with attention to the details of implementation. To this end, the book examines system level reforms in six countries at various levels of development. The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies, such as Singapore and Ontario, Canada, as well as in nations where students achieve much lower levels, such as Kenya, Mexico, Punjab-Pakistan and Zimbabwe. The chapters examine system-level reforms that focus on strengthening the capacity to teach the basics, as in Ontario and Pakistan, as well as reforms that aim at building the capacity to teach a much broader set of competencies and skills, such as Kenya, Mexico, Singapore and Zimbabwe. The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation, some just starting, some struggling to survive a governmental transition, and others that have been in place for an extended period of time. From the comparative study of these reforms, we aim to provide an understanding of how to build the capacity of education systems to teach 21st century skills at scale in diverse settings.

Education in Southern Africa

Mar 28 2022 *Education in Southern Africa* is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of each country in the region. With chapters covering Botswana, Lesotho, Madagascar, Mozambique, Namibia, South Africa, Swaziland and Zimbabwe, the book critically examines the development of education provision in each country as well as local and global contexts. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

Immigration and Development Apr 16 2021 This book deals with several issues linking immigration and social development. Following several approaches, from economic to sociological ones, it covers the many effects of the rising phenomenon of immigration. It deals with the effects of immigration on economic growth, on human capital accumulation, and on the government budget. Moreover, it also includes contributions on the social integration of immigrants and on the effects they have in some different cities. It covers studies in countries such as Norway, the USA, Romania, and South Africa. The book *Immigration and Development* is an essential reading for those who want to get a social sciences multidisciplinary approach to immigration as a social phenomenon.

Handbook of Research on Social Inequality and Education Jun 18 2021 In comparing one public school to another, discussions frequently include talk concerning the socioeconomics of a school or district, which then leads to talk about the advantages that one socioeconomic setting has over another. Educators tend to agree that low academic achievement frequently associated with a low socioeconomic

status is a characteristic difficult to resolve for a population of school children. The Handbook of Research on Social Inequality and Education is a critical reference source that provides insights into social influences on school and educational settings. Featuring an array of topics including online learning, social mobility, and teacher preparation, this book is excellent for educational leaders, educational researchers, teachers, academicians, administrators, instructional designers, and teacher preparation programs.

Zimbabwe's Farm Workers Sep 29 2019

Phinias-Mogorosi Makhurane Feb 01 2020

Professor Phinias Makhurane AKA "Double Brain" in this book remembers a life in education. As one of the first Africans to major in Physics and Mathematics at the University College of Rhodesia and Nyasaland Professor Makhurane was also the first black Zimbabwean to acquire a PhD in the sciences. He later went on to hold numerous high level positions in the Education sector in Southern Africa such as Deputy Vice-Chancellor of the University of Botswana and Pro Vice-Chancellor of the University of Zimbabwe where he was influential in the expansion of the university's infrastructure. Until his retirement Professor Makhurane was Vice-Chancellor at the National University of Science and Technology in Bulawayo.

Validating Technological Innovation Oct 23

2021 This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

School Science Practical Work in Africa Nov 23

2021 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

Zimbabwe Journal of Educational Research Jan 14 2021

Resilience Under Siege Oct 11 2020 This volume explores the challenges and solutions

experienced within Zimbabwe's economic and social spheres, with particular reference to the "crisis years" (2000-2008) and the "promising turn" (2009-2012). This latter phase was prompted by the formation of the Government of National Unity (GNU). The contributors to the volume pay attention to how individuals and institutions sought to respond to the crisis, critiquing the reactions of various actors and exploring solutions to the various challenges that were experienced. Chapters in this book include reviews of agricultural subsidies, a gendered approach to poverty, the collapse of service delivery (including a particular focus on education), the "look East policy", the expansion of the religious sector, and the experiences of Zimbabwean migrants in South Africa. Underlying these contributions are the concepts of resilience and agency. The authors all highlight the massive challenges that individuals and institutions had to navigate, and acknowledge the creativity deployed in such quests. This book will appeal to scholars in economics, history and economic history, religious studies, education, and political science, as well as the general reader.

Zimbabwe: The Blame Game Feb 24 2022

The Blame Game is a cycle of creative non-fiction pieces, pulling the readers through the politics of modern day Zimbabwe. Like in any game, there are players in this game, opposing each other. The game is told through the eyes of one of the players, thus it is subjective. It centres on truthfully trying to find who to blame for Zimbabwe's problems, and how to undo all these problems. Finding who to blame should be the beginning for the search of solutions. It encourages talking to each other, maybe about the wrongs we have done to each other, and genuinely trying to embrace and forgive each other. In trying to undo the problems in Zimbabwe, it also offers insight or solutions on a larger platform - Africa: particularly South Africa; that it might learn from other African countries that have imploded before it, how to solve its own problems.

International Handbook of Leadership for Learning Jul 20 2021 The International Handbook of Leadership for Learning brings together chapters by distinguished authors from thirty-one countries in nine different regions of the world. The handbook contains nine sections that provide regional overviews; a consideration of theoretical and contextual aspects; system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning. It also considers the challenge of educating current leaders for this new perspective, and how leaders themselves can develop leadership for learning in others and in their organisations, especially in diverse contexts and situations. The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future. The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in

promoting this. It concludes that the preposition 'for' between the two readily known and understood terms of 'leadership' and 'learning' changes everything as it foregrounds learning and complexifies, rather than simplifies, what that word may mean. Whereas common terms such as 'instructional leadership' reduce learning to 'outcomes', leadership for learning embraces a much wider, developmental view of learning.

Global Perspectives on Teacher Performance

Improvement May 30 2022

In-service teacher professional development is central to most empirical conceptions of educational quality. As the techniques and strategies for educational reform have spread rapidly throughout the world, teacher professional development practices have been borrowed across borders. It is important to study the global sharing of information on teacher professional development. Global Perspectives on Teacher Performance Improvement examines the implementation of proven, high quality teacher professional development practices in unique environments around the world. It further explains the power of a globally connected community of teacher quality improvement. Covering topics such as mentoring programs, education technology, and education workforce, this book is an essential resource for educational administration and faculty, pre-service teachers, the public education sector, government officials, educators of both K-12 and higher education, researchers, and academicians.

Facets of Power Jun 30 2022 The diamond fields of Chiadzwa, among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007 a new case of 'blood diamonds' had emerged, in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. Facets of Power is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed, as well as resistance by those who have suffered at the hands of the mineral's secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources, and mounting democratic challenges to elites whose power is sustained by preying on them.

Refugee Learner Experiences. A Case Study of Zimbabwean Refugee Children Oct 03

2022 This study is a presentation of Zimbabwean refugee learner experiences. Children escaped political persecution and economic problems which affected Zimbabwe in the year 2008. Many of these children were abused and witnessed traumatic experiences, their close relatives and neighbours being executed in cold blood. This study was guided

by three critical questions: i) who are the Zimbabwean refugee learners? ii) what were Zimbabwean refugee learners' migration experiences? and iii) what were Zimbabwean refugee learners' school experiences? The study employed Bronfenbrenner's Social Ecological Model as its overarching theoretical framework. Each stage of the refugee experience was described at each point in time.

Some Developments in Research in Science and Mathematics in Sub-Saharan Africa Jul 28 2019 Much attention in late-developing countries is given to providing access to studies which allow school leavers to enter science and technology-related careers. This book reviews research related to the crucial dimension of epistemological access to the disciplines of import, which students need as much as institutional access in order to improve their chances of success. A significant feature of this collection's research studies is that their empirical bases are highly localised, covering areas such as research methods, access, curriculum, instruction and assessment, and the relevance of science and mathematics education in Zimbabwe, Uganda, Swaziland, South Africa, Namibia, Malawi, Ghana and Lesotho. It is the outcome of a doctoral research capacity-development project, the Graduate Studies in Science, Mathematics and Technology Education (GRASSMATE).

Studies in Art Education Apr 28 2022

Africa, UK, and Ireland Jun 06 2020 Africa, UK, and Ireland: Writing Politics and Knowledge Production comprises 6 scholarly/nonfiction essays, 7 short stories, 67 poems, and 2 plays from writers and poets based in the UK, Africa and Ireland the diasporas. It focuses on politics and knowledge production acting as a vehicle in which the production of new knowledge between these three regions/countries intersects in the literary sphere. It dissects the scientific methods of producing knowledge through the act of producing new knowledge, it looks at the management of knowledge, the processing and sharing of knowledge, and dissects, artistically and critically. It further stresses the importance of the ownership of knowledge and how this knowledge shapes politics. The collection contains work from up-and-coming poets and writers, alongside established ones, also included are pieces from academic scholars, essayists, poets, writers of fiction, playwrights.

Africa, UK, and Ireland: Writing Politics and Knowledge Production will prove useful to literary and language theorists, poetry collections, political sciences, social sciences and human sciences, general academia and readers, education departments

and students.

Cross-border Migration: Zimbabwe - South Africa Exodus Sep 02 2022 The tribulations and terrors of the Zimbabwean diaspora seeking economic sanctuary in South Africa. *Science Teachers Association of Nigeria* Jan 02 2020

Code-Switching as a Pedagogical Tool in Bilingual Classrooms Sep 21 2021 Presenting a mixed methods study conducted in a bilingual mathematics classroom in Zimbabwe, this text reveals the semantic pedagogical functions and linguistic forms of code-switching during STEM instruction. Code-Switching as a Pedagogical Tool in Bilingual Classrooms offers a detailed analysis of code-switching in the context of educational linguistics, and reveals ten major pedagogical techniques which illustrate how teachers use code-switches to engage students and provide guidance, clarification, discipline, and recaps during individual and whole-class interactions. Chapters highlight that code-switching can be used in a targeted manner to harness the cognitive potential of bilingual speakers and enhance instruction. Ultimately, the text identifies implications for teacher education, language policy, and educational leadership more broadly, and demonstrates intersections with key areas including functional, critical, and cultural literacy. This text will benefit researchers, academics, and educators with an interest in bilingualism, applied linguistics, and secondary education more broadly. Those specifically interested in multicultural education, sociolinguistics and educational policy will also benefit from this book.

The World of Science Education Dec 13 2020 Each volume in the 7-volume series The World of Science Education reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, North Africa and the Middle East, and Sub-Saharan Africa. The focus of this Handbook is on research in science education in mostly former British colonies in Sub-Saharan Africa and the scholarship that most closely support this program. The reviews of the research situate what has been accomplished within a given field in Sub-Saharan Africa rather than an international context. The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education. The thrust lies in identifying the roots of research programs and sketching

trajectories - focusing the changing façade of problems and solutions within regional contexts. The approach allows readers to review what has been done and accomplished, what is missing and what might be done next.

Re-thinking Postcolonial Education in Sub-Saharan Africa in the 21st Century Jun 26 2019

What have postcolonial Sub-Saharan African countries achieved in their education policies and programmes? How far have they contributed to successful attainment of the targeted 2015 Millennium Development Goals (MDGs) on education? What were the constraints and barriers for developing an education system that appeals to the needs of the sub-region? Re-thinking Postcolonial Education in Sub-Saharan Africa in the 21st Century: Post-Millennium Development Goals is an attempt to demonstrate that Sub-Saharan Africa has the potential and capability to provide solutions to challenges facing its desire and ability to provide sustainable education to its people. To that end, the contributors are academics with an African vision attempting to come up with African home-grown perspectives to fill the gap created by the lapse of the MDGs as the guiding vision and framework for educational provision in Africa and beyond. The book seeks to articulate and address African issues from an informed as well as objective African perspective. The book is also intended to provide insights to scholars who are interested in studying and understanding the nature of postcolonial education in the Sub-Saharan African region. Given the objectives and themes of this book, it is intended for academic scholars, undergraduate and graduate students, human rights scholars, curriculum developers, college and university academics, teachers, education policy makers, international organisations, and local and international non-governmental organisations that are interested in African education policies and programmes. "Rethinking Postcolonial Education in Sub-Saharan Africa in the 21st Century provides contemporary reflections from multiple perspectives and re-positions the issue of education at the forefront of the debates on African development." - Lamine Diallo, Associate Professor, Wilfrid Laurier University, Canada "The book is a welcome addition to discourses and analyses on education in sub-Saharan Africa with reference to a postcolonial critique and the Millennium Development Goals framework on education in Africa." - Michael Tonderai Kariwo, PhD, Instructor and Research Fellow, University of Alberta, Canada
