Stickman Odyssey, Book 1 Aug 29 2019 When Zozimos is banished by an evil witch (his stepmother!) from the kingdom of Sticatha-the kingdom he was next in line to rule-he trains at battle (if you call chasing after butterflies training), travels across stormy seas (thanks for that, Poseidon), slays golems and monsters (with a lot of help), charms beautiful women (not really), and somehow (despite his own ineptitude) survives quest after quest. By the love of Zeus, though, none of it brings him any closer to home! It does, however, make for one quirky, original, giggle-provoking graphic novel sure to appeal to any kid interested in Greek mythology, or merely looking for an entertaining read.

Operating Manual for Spaceship Earth Jan 15 2021 One of Fuller's most popular works, *Operating Manual for Spaceship Earth*, is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity. How will humanity survive? How does automation influence individualization? How can we utilize our resources more effectively to realize our potential to end poverty in this generation? He questions the concept of specialization, calls for a design revolution of innovation, and offers advice on how to guide "spaceship earth" toward a sustainable future. Guidebook to Zen and the Art of Motorcycle Maintenance Jul 01 2022 When Robert Pirsig's *Zen and the Art of Motorcycle Maintenance* was first published in 1974, it caused a literary sensation. An entire generation was profoundly affected by the story of the narrator, his son, Chris, and their month-long motorcycle odyssey from Minnesota to California. A combination of philosophical speculation and psychological tension, the book is a complex story of relationships, values, madness, and, eventually, enlightenment. Ron Di Santo and Tom Steele have spent years investigating the background and underlying symbolism of Pirsig's work. Together, and with the approval of Robert Pirsig, they have written a fascinating reference/companion to the original. *Guidebook to Zen and the Art of Motorcycle Maintenance* serves as a metaphorical backpack of supplies for the reader's journey through the original work. With the background material, insights, and perspectives the authors provide, *Guidebook to Zen and the Art of Motorcycle Maintenance* is destined to become required reading for new fans of the book as well as those who have returned to it over the years.
