Sex and the Second-Best City May 18 2021 Sex and the Second-Best City deals with the topics of sex and society in the Laws of Plato with recourse to historical context and modern critical theory. It examines reconstructions of ancient "sexuality" with a view to increased clarification. The text of the Laws is considered, along with many of its literary qualities, its influences and the utopian plan that it proposes.

Aeschylus: Persae Aug 21 2021 Aeschylus' Persae, first produced in 472 BC, is the oldest surviving Greek tragedy. It is also the only extant Greek tragedy that deals, not with a mythological subject, but with an event of recent history, the Greek defeat of the Persians at Salamis in 480 BC. Unlike Aeschylus' other surviving plays, it is apparently not part of a connected trilogy. In this new edition A. F. Garvie encourages the reader to assess the Persae on its own terms as a drama. It is not a patriotic celebration, or a play with a political manifesto, but a genuine tragedy, which, far from presenting a simple moral of hybris punished by the gods, poses questions concerning human suffering to which there are no easy answers. In his Introduction Garvie defends the play's structure against its

critics, and considers its style, the possibility of thematic links between it and the other plays presented by Aeschylus on the same occasion, its staging, and the state of the transmitted text. The Commentary develops in greater detail some of the conclusions of the Introduction.

Studies on Greek Law, Oratory and Comedy Dec 25 2021 Douglas M. MacDowell (1931–2010) was a scholar of international renown and the articles included here cover a significant area of classical scholarship, discussing Athenian law, law-making and legal procedure, Old Comedy, comedy and law, politics and lexicography. All of these articles, published between 1959 and 2010, bear the characteristic marks of his scholarship: precision, balanced judgement, brevity and deep learning; they are rational and sober accounts of complicated and controversial issues. Many of these essays are virtually inaccessible as they were originally published in celebratory volumes or article collections which are now out of print or difficult to find outside major libraries. This collection of MacDowell's articles will make these works available to a broad scholarly audience, and make it easier to bring this scholarship to the classroom as part of courses in Classics, ancient history, legal history and theatre studies. The volume includes a biography of MacDowell by Christopher Carey, based on the testimony of his closest colleagues and personal friends, which was presented to the British Academy.

Tragedy and Philosophy Jun 30 2022 A critical re-examination of the views of Plato, Aristotle, Hegel and Nietzsche on tragedy. Ancient Greek tragedy is revealed as surprisingly modern and experimental, while such concepts as mimesis, catharsis, hubris and the tragic collision are discussed from different perspectives.

War and Violence in Ancient Greece Jun 18 2021 The study of Greek warfare should involve much more than reconstructing the experience of combat or revisiting the great wars of the classical period. Here, a distinguished cast of international scholars explores beyond the usual thematic and chronological boundaries. Ranging from the heroes of Homer to the kings and cities of the hellenistic age, the contributors set war in the context of other forms of Greek violence, private and public. At every turn they challenge received ideas about the causes and conduct of war, its development and its place in Greek society and culture.

Mockery and Secretism in the Social World of Mark's Gospel Apr 16 2021 Having established the context of mockery and shame in Ancient Mediterranean cultures, Dietmar Neufeld shows how Mark presented Jesus as a person with a sense of honour and with a sense of shame, willing to accept the danger of being visible and the mockery it attracted. Neufeld also considers the social functions of ridicule/mockery more broadly as strategies of social sanction, leading to a better understanding of how social, religious, and political practices and discourse variously succeeded or failed in Mark. Finally, Neufeld investigates the author of Mark's preoccupation with 'secrecy', showing that his disposition to secrecy in his narrative heightened when the dangers of scorn and ridicule from crowds or persons became pressing concerns. In a fiercely competitive literary environment where mocking and being mocked were ever present dangers, Mark, in his pursuit of authority gains it by establishing a reputation of possessing authentic, secret knowledge. In short, the so-called secrecy motif is shown to be deployed for specific, strategic reasons that differ from those that have been traditionally advanced.

Ideology of Democratic Athens Mar 28 2022 Investigates the construction of democratic ideology in Classical Athens through a study of the social memory of Athens' mythical past Proposes a novel approach to Athenian democratic ideology that opens new frontiers of investigation in ancient history and the social sciences The introduction clearly sets out the aims and methodology of the book and its place within the scholarship in ancient history and the social sciences Four case studies illuminate the impact of Athenian

democratic institutions on ideology, myth, and the use of social memory
Offers a long-awaited new interpretation of the Athenian funeral oration for the war dead
Offers clear overviews of Athenian democratic institutions (e.g., Assembly, Council, lawcourts) based on the most recent scholarship
Provides up-to-date overviews of several values in Greek thought (e.g., *charis*, *hybris*, *eugeneia*)
The debate on Athenian democratic ideology has long been polarised around two extremes. A Marxist tradition views ideology as a cover-up for Athens' internal divisions. Another tradition, sometimes referred to as culturalist, interprets it neutrally as the fixed set of ideas shared by the members of the Athenian community. Matteo Barbato addresses this dichotomy by providing a unitary approach to Athenian democratic ideology. Analysing four different myths from the perspective of the New Institutionalism, he demonstrates that Athenian democratic ideology was a fluid set of ideas, values and beliefs shared by the Athenians as a result of a constant ideological practice influenced by the institutions of the democracy. He shows that this process entailed the active participation of both the mass and the elite and enabled the Athenians to produce multiple and compatible ideas about their community and its mythical past.

Alternatives to Athens Aug 09 2020 In 1993 the world celebrated the 2500th anniversary of the birth of democracy in ancient Athens, whose polis - or citizen state - is often viewed as the model ancient Greek state. In an age when democracy has apparently triumphed

following the collapse of communism in Eastern Europe, we tend to forget that the democratic citizen-state was only one of many forms of political community in Greek antiquity. This volume, originally a seminar series at the universities of Leeds and Manchester, aims to redress the balance. Eighteen essays by established and younger historians examine alternative political systems and ideologies oligarchies, monarchies, mixed constitutions along with diverse forms of communal and regional associations such as ethnoi, amphiktyonies, and confederacies. The papers, which span the length and breadth of the Hellenic world from the Balkans and Anatolia to Magna Graecia and north Africa, highlight the immense political flexibility and diversity of ancient Greek civilization.

Dionysism and Comedy Jun 26 2019 This book investigates the idea of comic seriousness in Old Comedy. The issue has been a vexing one in classical studies, and the most traditional stance has been that Aristophanes' comedies reflect his personal ideology, reducing the plays to little more than political speeches. Riu concludes, in contrast, that we should abandon our preconceptions about comic seriousness and approach the language of Aristophanes with care and precision, alert to the nuances of meaning that the comic genre entails. Attempting to set Old Comedy in its proper context, Riu explores the myth and ritual of Dionysus in the city-state (including a reading of Euripides' Bacchae and other sources) and relates the patterns found in those myths to the works of Aristophanes. The book concludes with a section on the relationship between comedy and reality, the import of insults in comedy, comedy as ritual, the relationship between author and character, and the seriousness of comedy. With an appendix that examines the exceptional case of *Clouds*, *Dionysism and Comedy* is an important resource for students and scholars of classical comedy and the comedic genre

La hybris del punto cero Jan 14 2021 Inscrito en la perspectiva de los estudios poscoloniales, este trabajo parte del supuesto de que la violencia ejercida por el colonialismo europeo en el mundo no fue solo física y económica sino también "epistémica". El autor defiende la tesis de que hacia finales del siglo XVIII, la violencia epistémica del imperio español en América asume una forma específica: la hybris del punto cero. Es el momento en que la irrupción mundial del capitalismo exigía que la multiplicidad de expresiones culturales del planeta fuera traducida como una serie de diferencias ordenadas en el tiempo. Las "muchas formas de conocer" quedan integradas en una jerarquía cronológica donde el conocimiento científico ilustrado aparece en el lugar más alto de la escala cognitiva, mientras que todas las demás epistemes son vistas como su pasado. Los pensadores criollos ilustrados, vehículos de esta nueva política del significado, no dudaron en ubicar a los negros, indios y mestizos de la Nueva Granada en el lugar más bajo de la escala cognitiva. A estas poblaciones y no a los criollos debían dirigirse las biopolíticas disciplinarias del imperio. Situación que lleva al autor a defender la tesis de que en la periferia colonial hispanoamericana, Aufklärung no era solo el lugar de la distancia étnica de los criollos frente a las "castas". A la pureza cognitiva a nivel de la ciencia correspondería entonces una pureza de sangre a nivel de la nación. La violencia epistémica y no solo la violencia física se encontraría así en el origen mismo de la nacionalidad colombiana.

Demosthenes, Speeches 20-22 Oct 23 2021 This is the twelfth volume in the *Oratory of Classical Greece*. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek

life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. Demosthenes is regarded as the greatest orator of classical antiquity. This volume contains three important speeches from the earliest years of his political career: *Against Leptines*, a prosecution brought against a law repealing all exemptions from liturgies; *Against Meidias*, a prosecution for aggravated insult (*hybris*) brought against an influential politician; and *Against Androtion*, an indictment of a decree of honors for the Council of Athens. Edward M. Harris provides contemporary English translations of these speeches, two of which (*Leptines* and *Androtion*) have not been translated into English in over sixty years, along with introductions and extensive notes that take account of recent developments in Classical scholarship.

Not Sparing the Child: Human Sacrifice in the Ancient World and Beyond Jul 20 2021 The role of human sacrifice in the ancient Mediterranean world and its implications continue to be topics that fire the popular imagination and engender scholarly discussion and controversy. This volume provides balanced and judicious treatments of the various facets of these topics from a cross-disciplinary and cross-cultural perspective. It provides nuanced examinations of ancient ritual, exploring the various meanings that human sacrifice held for antiquity, and examines its varied repercussions up into the modern world. The book explores evidence to shed new light on the origins of the rite, to whom these sacrifices were offered, and by whom they were performed. It presents fresh insights

into the social and religious meanings of this practice in its varied biblical landscape and ancient contexts, and demonstrates how human sacrifice has captured the imagination of later writers who have employed it in diverse cultural and theological discourses to convey their own views and ideologies. It provides valuable perspectives for understanding key cultural, theological and ideological dimensions, such as the sacrifice of Christ, scapegoating, self-sacrifice and martyrdom in post-biblical and modern times.

Of Conflict and Concealment Sep 29 2019 Scholars have long debated the genre of the Gospels and many opinions have been put forward, such as biography, history, epic, or comedy. However, do the Gospels actually reflect these ancient genres? This book addresses this question and arrives at the conclusion that the Gospel of Mark was written as an ancient form of tragedy. Why would this matter to ancient or modern readers? Tragedy addresses the fundamental question of humanity's suffering and offers a philosophical perspective that orients the reader towards personal and societal growth. The Gospel of Mark fits within the tradition of tragic writings and speaks to the same challenges that all humanity faces: life is full of trouble and suffering, so how are we supposed to think about these things? The answer is to be found in Jesus, who is both divine and human, and who suffers as a result of engaging in conflict with the religious and political traditions of his time.

Hybris del arte contemporáneo Feb 12 2021 “Desde una articulación multidisciplinar –aunque desde un eje de interpretación psicoanalítico –, el libro propone una reflexión sobre la idea de la “muerte del Arte”. Lo hace en base a una homología existente hoy entre el objeto del arte contemporáneo, y la nueva subjetividad de sus creadores y espectadores. La convergencia en su condición de objeto, sería el efecto mayor de la primacía del discurso científico-técnico, el nuevo capitalismo de mercado y la crisis simbólica de la subjetividad moderna, que afectan hoy a la totalidad de la Cultura”.

Demosthenes the Orator Jan 02 2020 In the most comprehensive account available of the texts of Demosthenes, Douglas M. MacDowell describes and assesses all of the great orator's speeches, including those for the lawcourts as well as the addresses to the Ekklesia. Besides the genuine speeches, MacDowell also covers those which have probably wrongly been ascribed to Demosthenes, such as the ones written for delivery by Apollodorus; and he considers too the Epistles, the Prooemia, and the puzzling Erotic Speech.

Concord and Peace Dec 13 2020 Odd Magne Bakke presents the first in-depth study of 1 Clement from the standpoint of the letter's rhetoric. He bases his methodological analysis on tools from the Graeco-Roman rhetorical tradition, using both the handbooks as well as actual speeches and letters. These are supplemented by tools from modern text linguistics, which the author uses to do a compositional analysis of the letter, and by the tools of modern semantics, used to establish the language of concord in 1 Clement which it has in common with other relevant ancient literature. The author's approach constitutes a fresh reading of 1 Clement and provides new suggestions on several important issues in the immense research on the letter. He demonstrates both the thematic and argumentative unity of the letter. Its macro-structure reflects the conventional parts of the dispositio of ancient rhetoric (exordium, narratio, probatio, peroratio). Also, the sub-texts on different levels of these parts are shown to be integrated into and to serve Clement's overall argument for re-establishing concord and peace in the Corinthian church. Odd Magne Bakke questions the traditional views that the conflict in this church was between 'spirit' and 'office' or was a matter of 'doctrine'. He argues that Clement primarily regarded

it as a conflict between people of different socio-economic statuses in which a struggle for honor appeared to be an important aspect.

Citizen and Self in Ancient Greece Nov 11 2020 This 2006 study examines how the ancient Greeks decided questions of justice as a key to understanding the intersection of our moral and political lives. Combining contemporary political philosophy with historical, literary and philosophical texts, it examines a series of remarkable individuals who performed 'scripts' of justice in early Iron Age, archaic and classical Greece. From the earlier periods, these include Homer's Achilles and Odysseus as heroic individuals who are also prototypical citizens, and Solon the lawgiver, writing the scripts of statute law and the jury trial. In democratic Athens, the focus turns to dialogues between a citizen's moral autonomy and political obligation in Aeschylean tragedy, Pericles' citizenship paradigm, Antiphon's sophistic thought and forensic oratory, the political leadership of Alcibiades and Socrates' moral individualism.

Law and Ethics in Greek and Roman Declamation Apr 04 2020 Ancient declamation—the practice of delivering speeches on the basis of fictitious scenarios—defies easy categorization. It stands at the crossroads of several modern disciplines. It is only within the past few decades that the full complexity of declamation, and the promise inherent in its study, have come to be recognized. This volume, which contains thirteen essays from an international team of scholars, engages with the multidisciplinary nature of declamation, focusing in particular on the various interactions in declamation between rhetoric, literature, law, and ethics. Contributions pursue a range of topics, but also complement each other. Separate essays by Brescia, Lentano, and Lupi explore social roles—their tensions and expectations—as defined through declamation. With similar emphasis on historical circumstances, Quiroga Puertas and Tomassi consider the adaptation of rhetorical material to frame contemporary realities. Schwartz draws attention to the sometimes hazy borderline between declamation and the courtroom. The relationship between laws and declamation, a topic of abiding importance, is examined in studies by Berti, Breij, and Johansson. Also with an eye to the complex interaction between laws and declamation, Pasetti offers a narratological analysis of cases of poisoning. Citti discovers the concept of natural law represented in declamatory material. While looking at

a case of extreme cruelty, Huelsenbeck evaluates the nature of declamatory language, emphasizing its use as an integral instrument of performance events. Zinsmaier looks at discourse on the topic of torture in rhetorical and legal contexts.
