Encyclopedia of Vedic Astrology: Yogas Oct 03 2022 In Vedic astrology, the associations the planets form or variations of how they are placed in a horoscope are referred to as yogas. Yoga literally means union or that which adds, joins or yokes. Astrologically, Yoga refers to planetary combinations or configurations and their special results, which affect the life of an individual. In traditional Indian ephemeris, known as Panchang, Yoga is also a particular division of time, arrived at by adding longitudes of the Sun and the Moon at birth. These are 27 in number, starting from Viskumbha to Vaidhriti, each governed by a different constellation or lunar-mansion, which are also 27 in number. In spiritual field, the word "Yoga" means training, taming and stimulating the body and mind with universal soul. In Ayurveda, the yoga of two or more

medicines gives specific results. Yogas are one of the unique features of Vedic astrology. There are hundreds of yogas mentioned in various classical texts. Most of the yogas are formed of more than one planet, but all combinations do not mean a yoga formation. The idea behind these yogas is to equate the planets' strength in a chart, and how & when they will produce their effects in a native's life.

Handbook of Horary Astrology Jan 02 2020 Horary astrology is the only form of astrology that provides direct and decisive answers to questions that we want answered as soon as we ask them. It is pure predictive astrology and the interpretation of the chart is quite different than it would be one were reading a birthchart. Hamaker-Zondag has written this basic horary textbook for students who want to explore the concepts of horary, but who have been trained in character reading the psychological symbolism that can be seen in the natal chart. Because all facets of astrology are still developing, we are constantly adding new material to our body of astrological knowledge and technique, and Hamaker-Zondag says that these changes are based on the astrologers experience and our changing social structure. She briefly outlines some of the classical techniques used years ago for horary calculations, and then concentrates on the material that works for her in her practice in Holland. This is an excellent text for astrologers who want to start using horary techniques to answer specific questions.

Jamakkol Prasanam Sep 21 2021 The Jamakkol prasanam is a distinguished technique of horary method of prediction. It is widely practiced in Tamilnadu and for the first time, this procedure is made available in English through this Book. By crossing this language barrier, the Jamakkol prasanam system offers a novel and simple method of astrological divination. This will benefit the astrological community residing in other parts of India and the world. This method is not alien to the conventional and traditional system of astrology. It encompasses all the rules, procedures and the practices of the Parasara system only. It differs in the approach with specific and special rules. The Jamakkol prasanam uses the three vital factors namely the Udhaya, the Aaruda and the Kavippu. These three fundamentals join the Jama planets and their interaction paves the way for the astrological predictions. This book teaches from the basis of the calculations involved in finding the Udhaya, the Aaruda and the Kavippu and also the procedure to fix the Jama planets. The Kaarakathuvas of the planets, the bhavas and the signs are important to arrive at exact results. So they are dealt exhaustively and exclusively. This will be helpful not only to the practitioners of the Jamakkol prasanam, but also to the astrologers in general. Case studies have been included to facilitate the easy comprehension of the Jamakkol system.

We often forget that the basis of Vedic astrology will always be the mystical mythology associated with Jyotish, the science of light. Mr. DiCara's brilliant text illuminates our path home to the divine through his deep understanding and the blessings of the gods and goddesses of ancient India" - Dennis M. Harness, Ph.D. Psychologist, Writer and Vedic Astrologer "27 Stars, 27 Gods is a fantastically deep book about the fixed stars of Vedic astrology. Fundamentals of Astrology Mar 28 2022 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, "No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. "In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

Prasna Marga Part 1 Jul 20 2021 Prasna Marga is a unique work on astrology, natal and horary, of vital importance to every astrological scholar, practitioner and student. The author, a Nambudari Brahmin of Kerala who wrote this book in 1650 A.D., was a renowned scholar and has culled valuable information from a number of ancient sources. This ancient work, an English translation of which is presented here is simple and elegant English interspersed with copious notes incorporating the author's own experiences, touches on some of the most important aspects of life marriage, children, longevity, death, disease, etc. Part 1 is an exhaustive treatise on the various aspects of predictive astrology of immense practical utility, which deals not only with the various aspects of Prasna or Horary Astrology but also with almost the entire range of the forecasting art-Jataka or predictive astrology, Muhurta or electional astrology, Parihara or remedial astrology and Nimittas or the science of indications (Omens). Part II is an encyclopaedic work on matters that affect all areas of human life, such as marriage, children, causes of diseases as given in karma vipaka and the remedies, matters relating to deities, rulers, war, natural calamities, travel, rainfall, digging wells, details for finding underground water, theft cases, dreams and their interpretation as indicators for the death of disease and its timings, etc.

Prashnanushthana Paddhati Sep 09 2020 Prashnanushthana Paddhati or simply Anushthana Paddhati in short, is hugely popular work on horary astrology in Kerala since hundreds of years. The first part of the work mainly deals with the topics of longevity and diseases while the second part tackles other topics of day-to-day relevance of human existence. The other popular Jyotisha work from Kerala, Prashna Marga, draws heavily from Prashnanushthana Paddhati and follows its basic structure. Though many concepts of Prashnanushthana Paddhati are now available in Prashna Marga, it should be noted that several other Shlokas that are quite useful for effective prediction have been left out in Prashna Marga. This justifies the present translation work and its serious study by students of Jyotisha. In fact, Prashnanushthana Paddhati, which is neither too brief nor too elaborate, is complete in itself. Its adherents swear on its amazing efficacy which is evident by its popularity in the astrologer community of Kerala. Some even consider Prashnanushthana Paddhati superior to Prashna Marga. This great classic text is now brought to the English reading Jyotisha enthusiasts for the first time through this book.

dimensions of this science such as spirituality, spiritualism, Ayurveda, transmigration of souls, thought-reading, dreams, temple and its rituals and effects of particular sins. It urges readers to avoid fatalism commonly associated with predictions and explains how one could solve riddles in life and tide over the pessimistic attitude and related psychological problems. The author has thrown fresh light on some questions like the name of the author of Prasnamarga, line of succession of his pupils, and the authorship of the Dasadhyayi. The most significant contribution of this work is the clear exposition of the rules of Astamangala and Devaprasna, in addition to Candragupti (water-divination), martial problems, Coragrahas, Necromancy, special importance of Mandi and Dasa of its star, Kalacakradasa, etc.

Dots of Destiny Oct 11 2020 First ever book on Advanced Predictive Techniques of Ashtakavarga (Vedic Astrology) which leads the student step-by-step to the application of Ashtakavarga for everyday predictions. Reveals the decisive role of Ashtakavarga in analysing the dreaded period of sadhe-sati and much more. Vinay Aditya is the Associate editor of the 'Vedic Astrology' magazine, and author of a book on Ashtakavarga. Vinay Aditya holds a degree in engineering besides Jyotish Visharad from Bharatiya Vidya Bhawan, New Delhi. He has been teaching astrology for nearly 8 years, now with the ICAS. He has also been the faculty member at the ACVA conferences. He has given consultations to over thousand persons in Germany. Dots of Destiny describes advanced predictive techniques in a very lucid manner. Vinay Aditya, an engineer by education, opted for the highly evolved science of Vedic Astrology in India. Interestingly, also came across many articles by by Aditya, Vinay in 'Vedic Astrology' magazine. Great reading to all interested in Vedic Astrology and ancient predictive techniques of India. Basic knowledge of Vedic Astrology is a prerequisite to understand and enjoy reading Dots of Destiny. The entire edifice of astrology rests on the interpersonal play of planets in the backdrop of zodiacal signs. Ashtakavarga is the only method which puts this interplay into a competent system. A planet will do a job according to its strength. The other methods Shadbala (Parashari), Panchavargiya bala (Tajik), or Grahabala (Jaimini), have their own specific value, but they all seem to miss a very important point. And that is, that a planet does not operate in a vacuum, the other six planets are always somewhere around. Therefore, a planet will do a job only in as much measure as the other planets would allow it to do. The other planets either support its assignment or oppose it. In a nutshell, the native, at all times, experiences the combined results of all the planets. It is only a manner of speech amongst astrologers that a particular planet is causing trouble or otherwise because talking of all the seven planets in the same breath is difficult. It is for this reason that the Ashtakavarga system, when we say that Jupiter is powerful because it has 7 Bhinnashtaka bindus, or 42 Sarvashtaka bindus in a sign, what we mean is, that all the planets have gathered together to invest into Jupiter this power. In no other branch of astrology this truly democratic approach is visible so clearly. If there is any sanctity or rationale of Ashtakavarga in the birth chart, it ought to be explored in other charts too, since in all the charts, it is always the interplay of planets with each other that causes events. Whether the results of this exploration are acceptable to the astrologers, by and large, will depend on successful predictions made by the explorers using Ashtakavarga techniques. If and when a sufficient statistical proof is available, then these techniques may be inducted into astrological dicta of the present times. Ashtakavarga seems to be progressively getting out of bounds for those orthodox astrologers who, before they accept an astrological idea, keep propping up the refrain, "Where is it written in the classics?"
