Classic Collection of Autobiographies. Illustrated Sep 06 2020

Autobiographical works can take many forms, from the intimate writings made during life that were not necessarily intended for publication (including letters, diaries, journals, memoirs, and reminiscences) to a formal book-length autobiography. Reading an autobiography can offer a unique insight into a world and experience very different from your own — and these real-life stories are even more entertaining, and stranger, than fiction. Take a glimpse into the lives of some of the world's most inspiring and successful celebrities from ancient times to the present day. 1. The Life of Flavius Josephus 2. "De Bello Gallico" and Other Commentaries by Julius Caesar 3. The Confessions of St. Augustine by Bishop of Hippo Saint Augustine 4. The Autobiography of St. Ignatius by Saint of Loyola Ignatius 5. Letters to His Son, Complete by Earl of Philip Dormer Stanhope Chesterfield 6. Autobiography of Benjamin Franklin 7. Personal Memoirs of Ulysses S. Grant 8. An Autobiography by Theodore Roosevelt 9. Autobiography of Andrew Carnegie 10. My Inventions: The Autobiography of Nikola Tesla 11. Henry Ford: Highlights of His Life 12. The Autobiography of Goethe by Johann Wolfgang von Goethe 13. Automobile Manufacturers Worldwide Registry Mar 13 2021 This one-of-a-kind reference work provides essential data on some 10,700 manufacturers of automobiles, beginning with the earliest vehicle that might be so termed (Frenchman Nicolas Cugnot's steam carriage, in 1770) and covering all nations in which automobiles have been built--67 in all. Not an encyclopedia or collection of histories, this is instead a very complete registry providing essential facts about the manufacturers: complete name, location, years active, type(s) of vehicles built, and other basic data. Compiled during more than 30 years of research, this reference even lists companies that produced just one car. Any builder of passenger-carrying vehicles on at least two but no more than eight wheels, of any design, either mass produced or built as one-off specials, experimental cars, prototypes, or kit cars, is included. Builders of

internal combustion, steam and electric powered vehicles are all covered; companies that built only trucks, buses, racing cars, or motorcycles are not included. From A.A.A. to Zzipper and Argentina to Yugoslavia, this is an astonishingly comprehensive resource.

Merchant Vessels of the United States Nov 08 2020 From 1894/95-1935/36, pt.6 of each volume is issued separately, with titles, 1894/95-1902/03: Code list of merchant vessels of the United States; 1903/04-1935/36: Seagoing vessels of the United States.

Ethiopian Highlands Apr 13 2021 Across the sands of time, Ethiopia has embodied fantasy and intrigue. The richly storied country has been a supporter of Christianity for the Crusaders in the Middle Ages, a symbol of resistance to European colonization in the late 19th century, and, most recently, a recipient of aid due to its extreme poverty. Ethiopian Highlands offers a striking look into this world of contrasts. These vibrant, intimate images captured by Lizy Manola, whose Greek nationality connects her implicitly to Ethiopia's past, bring us to the very heart of this ancient land, seen by many as the birthplace of humanity.

Bullitt Feb 09 2021 Get the behind the scenes view of arguably the most iconic automotive movie car and scene in history. Ask any automotive enthusiast what his or her favorite chase scene to appear in a movie is, and the majority will respond with "Bullitt." It has made the top 5 in every list covering the best automotive chase scenes in history. But the appeal isn't just about the chase scene. Shot entirely on location in picturesque San Francisco in 1968, the movie not only features the historic chase scene but also many outdoor scenes filled with cars and architecture of the period that are filmed in crisp clear color. The movie was the fifth-highest-grossing film for 1968, it was well received by

critics, and the chase scene won Franks P. Keller an Oscar for editing. In *Bullitt: The Cars and People Behind Steve McQueen*, you will get the complete behind the scenes picture of how all the action was coordinated and filmed. Included are the ideas behind the making of the movie, an interview with Director Peter Yates, production stills, and the planning for the scene. Also covered is the cast, the building of the cars used in the film, and the how and why the stunts were choreographed and filmed. To round out the story, an examination of what happened to the cars is included as well as coverage of the multiple Bullitt Edition cars released by Ford after the film, including the latest 2019 edition. While several books have been published about Steve McQueen, the "King of Cool," never before has there been a thorough examination of this specific film and these specific cars. This edition is a welcome addition to the library of any McQueen, Mustang, or automotive film history fan.

Scotland and the Sea Jun 23 2019 Scotland's maritime heritage is a highly significant one, embracing as it does a quite outstanding contribution to Britain's development both as an empire and as the world's leading maritime power in the nineteenth century. Scottish engineering, ship owning and operating, as well as business and entrepreneurial skills, played a major part in the success of the Merchant Navy, while Scottish emigrants took skills to every corner of the world, creating trade and wealth both abroad and at home. In terms of

engineering, Clyde-built was the Kite Mark for the shipbuilding industry the world over. Scottish shipowners included household names such as Allan, Anchor, Donaldson and Henderson, while Scotsmen were instrumental in founding and, for much of the time, managing Cunard, British India, P & O, Orient, Glen and many other English companies. The author tells an exhilarating story of energy and inventiveness, describing the remarkable navigational skills of the highlanders and the technological and business skills of the lowlanders, and relates the early development of the steamship, the impact of emigration, the involvement with exploration and the development of trade routes, and the final flowering of the world's last great iron sailing ships.
