Disease Control Priorities, Third Edition (Volume 48) 18 2021 More children born today will survive to adulthood than at any time in history. It is now time to emphasize health and development in middle childhood and adolescence--developmental phases that are critical to health in adulthood and the next generation. Child and Adolescent Health and Development explores the benefits that accrue from sustained and targeted interventions across the first two decades of life. The volume outlines the investment case for effective, costed, and scalable interventions for low-resource settings, emphasizing the cross-sectoral role of education. This evidence base can guide policy makers in prioritizing actions to promote survival, health, cognition, and physical growth throughout childhood and adolescence.

The Family and Social Change in Chinese Societies Mar 01 2020 This book focuses on families and their changes in Taiwan and China. Traditional notions of what constitutes a family have been changing in China, Taiwan and other Asian countries. The chapters in this book provide interesting methodological and substantive contributions to the discourse on family and social change in Chinese societies. They also underscore the implications of the various social changes in Chinese families. Written by Chinese and Western scholars, they provide an unprecedented overview of what is known about the effects of social change on Chinese families. One might think that defining a "family" is an easy task because the family is so significant to society and is universal. The family is the first place where we learn culture, norms, values, and gender roles. Families exist in all societies throughout the world; but their constitution differs. In the past several decades there have been many changes in the family in Taiwan and China. For instance, whereas in the West, we use a bilineal system of descent in which descent is traced through both the mother's side and the father's side of the family, in many parts of China, descent is patrilineal, although this is changing, and China and Taiwan are starting to assume a family constitution similar to that in the West. This and other issues are discussed in great detail in this book. Indeed it is the very nature of the differences that motivated the writing of this book on changing families in Taiwan and China. The chapters in Part I: The Family in Taiwan and China focus on the basic family issues in Taiwan and China that provide the groundwork for many of the chapters that follow. Chapter 1 is about the distribution of resources in the family in Taiwan. Chapter 2 focuses on filial piety and the autonomous development of adolescents in the Taiwanese family, and Chapter 3 explores the important issue of family poverty in Taiwan. Chapter 4 moves away from Taiwan and looks at several issues of family growth and change in Hong Kong, noting the interesting similarities and differences between Hong Kong and China. Part II: Issues of Marriage, the Family and Fertility in Taiwan and China focuses specifically on marriage, family and fertility. In Chapter 5 the authors discuss the relationships between marital status, socioeconomic status and the subjective well-being among women in Hong Kong and Taiwan. Chapter 6 describes patterns of sexual activity in China and the United States. Chapter 7 considers gender imbalances in Taiwan and their impact on the marriage market. Chapter 8 also focuses on Taiwan and examines the effects of mothers' attitudes on daughters' interaction with their mothers-in-law. Chapter 9 compares female and male fertility trends and changes in Taiwan. Part III: Children and the Family in East Asia and in Western Countries

consists of comparative studies of the family and children. Chapter 10 examines the dynamics of grandparents caring for children in China. Chapter 11 explores family values and parent-child interaction in Taiwan. Chapter 12 examines the significant amount of diversity among families in contemporary Taiwan. Chapter 13 describes adolescent development in Taiwan. Chapter 14 examines the impact of son preference on fertility in China, South Korea and the United States. And Chapter 15 explores the determinants of intergenerational support in Taiwan. The final chapter in our book, the only chapter in Part IV: The Family and the Future in Taiwan, examines the future of the family in Taiwan with respect especially to the marriage market and aged dependency.

Annual Plant Reviews, Cell Cycle Control and Plant Development Jan 29 2020 The cell cycle in plants consists of an ordered set of events, including DNA replication and mitosis, that culminates in cell division. As cell division is a fundamental part of a plant's existence and the basis for tissue repair, development and growth, a full understanding of all aspects of this process is of pivotal importance. Cell Cycle Control and Plant Development commences with an introductory chapter and is broadly divided into two parts. Part 1 details the basic cell machinery, with chapters covering cyclin-dependent kinases (CDKs), cyclins, CDK inhibitors, proteolysis, CDK phosphorylation, and E2F/DP transcription factors. Part 2, which describes the cell cycle and plant development, covers cell cycle activation, cell cycle control during leaf development, endoreduplication, the cell cycle and trichome, fruit and endosperm development, the hormonal control of cell division and environmental stress, and cell cycle exit. The editor of this important book, Professor Dirk Inzé, well known and respected internationally, has brought together an impressive team of contributing authors, providing an excellent new volume in Blackwell Publishing's Annual Plant Reviews Series. The book is an essential purchase for research teams working in the areas of plant sciences and molecular, cell and developmental biology. All libraries in universities and research establishments where biological sciences are studied and taught should have copies of this essential and timely volume.

Handbook of Early Childhood Education Jun 27 2022 Comprehensive and authoritative, this forward-thinking book reviews the breadth of current knowledge about early education and identifies important priorities for practice and policy. Robert C. Pianta and his associates bring together foremost experts to examine what works in promoting all children's school readiness and social-emotional development in preschool and the primary grades. Exemplary programs, instructional practices, and professional development initiatives—and the systems needed to put them into place—are described. The volume presents cutting-edge findings on the family and social context of early education and explores ways to strengthen collaboration between professionals and parents.

Impact Evaluation in Practice, Second Edition May 27 2022 The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One

discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Thrust Belts and Foreland Basins May 15 2021 What is the important geologic information recorded in Thrust Belts and Foreland Basins (TBF) on the evolution of orogens? How do they transcript the coupled influence of deep and surficial geological processes? Is it still worth looking for hydrocarbons foothills areas? These and other questions are addressed in the volume edited by Lacombe, Lavé, Roure and Vergés, which constitutes the Proceedings of the first meeting of the new ILP task force of "Sedimentary Basins", held in December 2005 at the Institut Français du Pétrole, on behalf of the Société Géologique de France and the Sociedad Geologica de España. This volumes spans a timely bridge between recent advances in the understanding of surface processes, field investigations, high resolution imagery, analogue-numerical modelling, and hydrocarbon exploration in TBF. With 25 thematic papers including well-documented regional case studies, it provides a milestone publication and a new in-depth examination of TBF.

Abnormal Psychology and Life: A Dimensional Approach Aug 25 2019 Chris Kearney and Tim Trull's ABNORMAL PSYCHOLOGY AND LIFE: A DIMENSIONAL APPROACH provides students with a concise, contemporary, science-based view of psychopathology that emphasizes the individual first. Through consistent pedagogy featuring clinical cases and real first-person narratives, the text illuminates our understanding that abnormal behavior can be viewed along a continuum. By highlighting this widely accepted dimensional view which places the behavior of an individual at the forefront of clinical definition, assessment, and treatment the text's goal is to foster personal relevance for students and encourage them to become intelligent consumers of mental health information. The book also gives students a comprehensive understanding of the features and epidemiologies, risk factors and prevention, assessment and treatment, and long term prognosis and associated stigma of mental disorders. The Boy in the Striped Pajamas Apr 25 2022 Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as The Diary of Anne Frank." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences.

Handbook of Food Structure Development Jul 29 2022 The most useful properties of food, i.e. the ones that are detected through look, touch and taste, are a manifestation of the food's structure. Studies about how this structure develops or can be manipulated during food production and processing are a vital part of research in food science. This book provides the status of research on food structure and how it develops through the interplay between processing routes and formulation elements. It covers food structure development across a range of food settings and consider how this alters in order to design food with specific functionalities and performance. Food structure has to be considered across a range of length scales and the book includes a section focusing on analytical and theoretical approaches that can be taken to analyse/characterise food structure from the nano- to the macro-scale. The book concludes by outlining the main challenges arising within the field and the opportunities that these create in terms of establishing or growing future research activities. Edited and written by world class contributors, this book brings the literature up-to-date by detailing how the technology and applications have moved on over the past 10 years. It serves as a reference for researchers in food science and chemistry, food processing and food texture and structure.

A Topical Approach to the Developing Person Through the Life Span 08 2020 With Macmillan's superior content delivered by LaunchPad (comprehensive course) or Achieve Read & Practice (e-book + online homework), Kathleen Berger's breakthrough text tells a compelling story of life-span development via a topically organized approach. This is not a reorganized iteration of another Berger textbook, but rather a fully reconceived first edition exploring human development topic by topic. But always with Berger, it is exceptionally accessible and compelling, distinguished by an engaging narrative voice, wide-ranging cultural perspective, and an emphasis on relating universal themes to students' own lives. The LaunchPad option for this book offers a variety of engaging activities including Data Connections (a hands-on approach to understanding research data, Visualizing Development, (which explores important concepts through a combination of media), and Developing Lives (where students to "raise" a virtual child from newborn to teenager).

Beginning iOS 13 & Swift App Development **May 03 2020** In this book, we take you on a fun, hands-on and pragmatic journey to learning iOS13 application development using Swift. You'll start building your first iOS app within minutes. Every section is written in a bite-sized manner and straight to the point. We don't want to waste your time (and most certainly mine) on the content you don't need. In the end, you will have the skills to create an app and submit it to the app store. In the course of this book, we will cover: Chapter 1 - Working with Xcode and Swift to build a BMI calculator app. Chapter 2 - Build a Quotes app using Table View Chapter 3 - Create a To Do List app where we create, read, update and delete to-do items Chapter 4 - Implement data persistency to our To Do List app using Core Data Chapter 5 - Improve our To Do List app by adding images and implementing swipe deletion Chapter 6 - Build a cryptocurrency price tracker app which retrieves prices via an API Chapter 7 - Build a image detection app using machine learning with Core ML 2 and Create ML 2 Chapter 8 - Create an Augmented Reality app with ARKit Chapter 9 - Publish our app on to the App store Chapter 10 - Swift Chapter 11 - Dark Mode Chapter 12 - Porting your iOS App to the Mac with Project Catalyst The goal of this book is to teach you iOS development in a manageable way without overwhelming you. We focus only on the essentials and cover the material in a hands-on practice manner for you to code along. About the Reader No previous knowledge on iOS development required, but you should have basic programming knowledge. About the Author Greg Lim is a technologist and author of several programming books. Greg has many years in teaching programming in tertiary institutions and he places special emphasis on learning by doing.

Human Development from Middle Childhood to Middle Adulthood **Dec 10 2020** This seminal work focuses on human development from middle childhood to middle adulthood, through analysis of the research findings of the groundbreaking Jyväskylä Longitudinal Study of Personality and Social Development (JYLS). The JYLS project, which began in 1968, has generated extensive publications

over many years but this is the first comprehensive summary that presents the conceptual framework, the research design and methodology, and the findings. The study looks at the development over time of issues related to personality, identity, health, anti-social behavior, and well-being and is unparalleled in its duration, intensity, comprehensiveness and psychological richness. The thorough synthesis of the study illustrates that there are different paths to adulthood and that human development cannot be described in average terms. The 42-year perspective that the JYLS provides shows the developmental consequences of children's differences in socioemotional behavior over time, and the great significance of children's positive socioemotional behavior for their further development until middle age. Not only will the book be an invaluable tool for those considering research methods and analysis on large datasets, it is ideal reading for students on lifespan courses and researchers methodologically interested in longitudinal research.

The Age of Sustainable Development Nov 01 2022 Jeffrey D. Sachs is one of the world's most perceptive and original analysts of global development. In this major new work he presents a compelling and practical framework for how global citizens can use a holistic way forward to address the seemingly intractable worldwide problems of persistent extreme poverty, environmental degradation, and political-economic injustice: sustainable development. Sachs offers readers, students, activists, environmentalists, and policy makers the tools, metrics, and practical pathways they need to achieve Sustainable Development Goals. Far more than a rhetorical exercise, this book is designed to inform, inspire, and spur action. Based on Sachs's twelve years as director of the Earth Institute at Columbia University, his thirteen years advising the United Nations secretary-general on the Millennium Development Goals, and his recent presentation of these ideas in a popular online course, *The Age of Sustainable Development* is a landmark publication and clarion call for all who care about our planet and global justice. Life-Span Human Development Aug 30 2022 Known for its clear, straightforward writing, grounding in current research, and well-chosen visuals and examples, Sigelman and Rider's text combines a topical organization at the chapter level and a consistent chronological presentation within each chapter. Each chapter focuses on a domain of development and traces developmental trends and influences in that domain from infancy to old age. Each chapter also includes sections on infancy, childhood, adolescence, and adulthood. The blend of topical and chronological approaches helps students grasp key transformations that occur in each period of the life span. Other staples of the text are its emphasis on theories and their application to different aspects of development and its focus on the interplay of nature and nurture in development. This edition expands its examination of both biological bases of an

sociocultural influences on life-span development. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Hate U Give Sep 18 2021 8 starred reviews · Goodreads Choice Awards Best of the Best · William C. Morris Award Winner · National Book Award Longlist · Printz Honor Book · Coretta Scott King Honor Book · #1 New York Times Bestseller! "Absolutely riveting!" —Jason Reynolds "Stunning." —John Green "This story is necessary. This story is important." —Kirkus (starred review) "Heartbreakingly topical." —Publishers Weekly (starred review) "A marvel of verisimilitude." —Booklist (starred review) "A powerful in-your-face novel." —Horn Book (starred review) Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven's story in *Concrete Rose*, Angie Thomas's powerful prequel to *The Hate U Give*.
